

Job Title: Full Stack Developer (.NET and Angular)

Company Overview:

We are a dynamic and innovative software development company that specializes in delivering cutting-edge solutions to our clients. We are seeking a skilled Full Stack Developer with expertise in .NET and Angular to join our talented team. This is an exciting opportunity to contribute to the development of highly functional and visually appealing web applications that will have a significant impact on our clients' businesses.

Job Description:

As a Full Stack Developer with .NET and Angular experience, you will be responsible for designing, developing, and implementing web applications that meet our clients' requirements. You will collaborate closely with cross-functional teams, including project managers, designers, and other developers, to deliver high-quality solutions.

Responsibilities:

- Participate in the entire software development lifecycle, including requirements gathering, design, development, testing, and deployment.
- Develop robust and scalable web applications using .NET framework and Angular.
- Create clean, efficient, and maintainable code using best practices.
- Collaborate with designers to implement visually appealing user interfaces.
- Integrate front-end and back-end components to ensure seamless functionality.
- Optimize application performance and troubleshoot issues as they arise.
- Conduct thorough unit testing to identify and fix bugs and improve overall software quality.

Requirements:

- Bachelor's degree in computer science, Software Engineering, or a related field (or equivalent experience).
- Relevant experience as a Full Stack Developer, with a focus on .NET and Angular. (3 to 6 years)
- Strong knowledge of C#, ASP.NET, and .NET framework.
- Proficiency in Angular 6+ and TypeScript.
- Experience with front-end technologies such as HTML5, CSS3, and JavaScript.
- Familiarity with database systems such as SQL Server.
- Solid understanding of software development principles, design patterns, and best practices.
- Ability to work both independently and collaboratively in a fast-paced team environment.
- Strong problem-solving skills and attention to detail.
- Excellent communication and interpersonal skills.

Preferred Skills:

- Experience with Agile development methodologies.
- Knowledge of cloud platforms such as Azure or AWS.
- Familiarity with version control systems such as Git.
- Understanding of responsive design and mobile development principles.

We offer a competitive salary package, opportunities for professional growth, and a supportive work environment that encourages innovation and creativity. If you are passionate about delivering high-quality software solutions and want to be part of a talented team, we would love to hear from you.

Please send your resume and portfolio demonstrating your .NET and Angular expertise for consideration to resumes@quadraforcetech.com
