

Senior UX Designer

About the role

We are currently hiring a Senior UX Designer who will have responsibility for the digital experience and will be a key player within the product delivery organization.

Responsibilities

- Create intuitive and delightful user experiences across web and mobile platforms.
- Collaborate with cross-functional teams (product managers, developers, and visual designers) to define and refine product features.
- Create elegant and intuitive user interfaces for web and mobile applications.
- Collaborate with product owners and developers to translate wireframes and prototypes into polished designs.
- Ensure consistency in visual elements, typography, and layout across different screens.
- Develop high-quality mockups, icons, and graphics.
- Apply design principles to enhance usability and aesthetics.
- Stay updated on design trends and best practices.
- Develop wireframes, prototypes, and user flows to communicate design concepts.
- Ensure consistency and usability by adhering to established design patterns and guidelines.
- Iterate on designs based on user feedback and usability testing.
- Design interactive elements such as buttons, forms, and navigation menus.
- Optimize user flows and interactions to improve overall usability.
- Create designs that adapt seamlessly to various screen sizes and devices.
- Consider mobile-first design principles.
- Work closely with stakeholders and cross-functional teams to align design goals with business objectives.

Candidate requirements

- 4+ years' experience and great communication skills
- Bachelor's degree in design, Human-Computer Interaction, Interaction Design, or related field.
- Experience with an Agile development processes, especially Scrum.
- Proven experience as a UX designer, preferably in a senior or lead role.
- Experience designing enterprise or B2B SaaS products.
- Proficiency in design tools such as Sketch, Figma, or Adobe XD.
- Strong understanding of usability principles and user-centered design methodologies.
- Excellent communication, presentation, and problem-solving skills.
- Attention to detail and a passion for creating exceptional user experiences.
- Ability to work collaboratively in a fast-paced environment.
- Strong communication and cross team collaboration skills
